

## 9altitudes continues to grow its PTC business with Econocap Denmark

September 20th 2021 - 9altitudes strengthens its PTC position with a new acquisition in Denmark. Econocap Denmark joins the 9altitudes group. Together with Optimate and Bredana Solutions – two other member in Denmark – they will become the beating heart of 9altitudes in Denmark. 9altitudes Denmark delivers digital projects in ERP - CRM - PLM - IOT - BI – DMS as well as CAD.

### A perfect fit

Denmark is a growth market for 9altitudes. The collaboration with Econocap Denmark fits perfectly within the group's strategy. The 9altitudes group stands for solid industry knowledge with a clear emphasis on manufacturing. This acquisition strengthens the PTC offering in Europe.

9altitudes carefully selects world class proven platforms as the foundation for its solutions. PTC complements the 9altitudes Microsoft based solutions by connecting engineering and manufacturing solutions to enable end-to-end process automation across multiple departments.

*“We have always been a strong believer of the PTC offer. We started working with PTC 10 years ago because PTC filled the gap to offer an end-to-end solution to manufacturing companies. We take pride in the numerous successful PTC implementations that are serving our customers today in Belgium, Netherlands and France. I am personally honored to welcome Econocap, a top PTC partner in Denmark to the 9altitudes family and to continue to learn from each other.” - Filip Bossuyt, CEO 9altitudes*

### About 9altitudes

9altitudes automates business processes and delivers extra added value thanks to its clear industry knowledge and unique methodology that allows for accelerated go live. They act as trusted advisor for digital implementation processes, digital transformation challenges and digital innovation initiatives. 9altitudes ensures that the customer sees the forest for the trees and uses technology to make a difference, not only today but also tomorrow.

With the acquisition of Econocap Denmark, 9altitudes is once again reinforcing its growth ambitions. The build & buy strategy of the international investment company Waterland is successfully translated by 9altitudes into a European platform for entrepreneurship where maximum digital added value is created by means of mutual cross-fertilization.

## 9altitudes growth path

### The right technology, put in action

With 400+ customers Econocap Denmark is a true expert in PLM, Industrial IoT solutions, Augmented Reality as well as CAD Solutions via PTC Windchill, ThingWorx, Vuforia, Creo and Onshape.

Econocap has 2 offices in Denmark and belongs to the list of top PTC partners. The team strives towards flawless implementations fulfilling customers requirements in close cooperation with the relevant stakeholders.

In addition they also understand the importance of user-adoption. Econocap supports its customers through training and hotline assistance. This allows them to meet and truly understand the day-to-day needs of the end-users.

### A trusted advisor that goes beyond technology

Econocap has 20 years' experience working from the product development side extending into manufacturing. This complements the existing knowledge in the group in Denmark. 9altitudes has a clear vision of exchanging experience, so that the organizations within the 9altitudes family reinforce each other. The 9altitudes community of end-users in manufacturing all benefit from that expertise. Technology continuously evolves and it takes profound understanding of the business to make both worlds meet.

*“Our consultants have all worked in the industry, so they understand what our customers are talking about, and can give them the best advice there is to ensure that they realize true business value from their investment in PTC software and our services.” - Bo Rixen, Econocap Denmark*

*“For us, it all boils down to trust, a shared goal and values, the successful implementation of the project, and understanding your business 100%. That is what delivers results and adds value to our customer’s organization.” – René Frokjaer, Managing Director 9altitudes Denmark*

## **Ambitious goals**

With the arrival of Econocap Denmark, the group generates a consolidated turnover of roughly 85 million Euro and unites nearly 500 employees across 5 countries. With this 9altitudes reaffirms its goal to become a leading European Digital Transformation partner. The group has the ambition to grow further to a turnover of € 150 million in the next 3 years through both organic growth and further acquisitions.
